Nature, an amazing source of inspiration. Plants and trees create shade in a unique way, for themselves and for their environment. This is why nature is the starting point for the Rimbou range. The Rimbou enables you to enjoy the shade on your lounge chair, in a classy way, the entire day.

The Ingenua shade sails are a synonym for a beautiful and flexible living space. The system is a unique combination of beauty, grandiosity and ease of use. Ingenua has reinvented the classic shade sails and adds an unprecedented ease of use to it.
